

RELIABLE UPTIME WITH PERSONALISED SOLUTION

To truly improve uptime and reduce costs, your maintenance strategy should reflect the unique application and operational needs of your business.

Maintenance Care delivers customized and professional service solutions tailored to your specific business requirements. With our expert team by your side, your vacuum system receives the focused attention it needs to perform at its peak, ensuring reliability, efficiency, and confident budget planning.

Personalized maintenance for your business

Neglecting routine maintenance can lead to unexpected downtime, expensive repairs, production losses, and reduced efficiency. We provide a tailored maintenance plan with timely professional service and planned overhauls or exchanges, customized for your equipment's service history, condition, and operational needs.

Maintenance Care ServicePlan™ for Vacuum Pumps

How can you achieve higher output while keeping expenses low?

Reactive or untimely service interventions can lead to downtime, reduced productivity, and operational inefficiencies. This customized approach schedules critical services, such as routine maintenance and planned overhauls, or exchanges, in advance, all managed under a single purchase order.

Customers with Maintenance Care typically experience average service cost savings of 20% over a five-year period.

How can you boost uptime to meet your business goals?

Neglected wear and postponed maintenance may result in early equipment failure and reduced operational life. Our vacuum specialists employ a proactive strategy, providing scheduled maintenance and planned overhauls or exchanges customized to meet your specific requirements.

Customers with Maintenance Care receive on average 18 more days of operational uptime each year.

How can you simplify budget planning and minimize cost uncertainty?

Unexpected repairs and varying service costs make budgeting difficult. Our tailored service agreement covers all necessary maintenance, including scheduled overhauls or exchanges for the entire planned period.

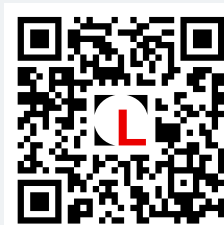

Your **ServicePlan™** features **GENIUS Instant Insights™**, a remote monitoring solution designed to maximize production uptime and reduce operating costs. By continuously tracking your vacuum equipment's performance, we help prevent unplanned failures through early issue detection and proactive intervention. You'll also gain access to the **GENIUS Portal**, providing 360° visibility into your equipment's status and operating conditions, empowering you to make faster, more informed maintenance decisions.

*Only compatible with select vacuum equipment models.

Pioneering products. Passionately applied.
