Transformative solutions for peak team performance

To help maintain focus on core business activities, it is important to ensure that operations remain efficient. Total Care supports you by managing scheduled maintenance, planned overhauls or exchanges, and unexpected breakdown repairs, delivered through our expert team.

Total Care ServicePlan™ for Vacuum Pumps

How can you reduce your overall cost of ownership?

Unexpected downtime, lost production, and administrative delays can drive up your total cost of ownership over time. Our comprehensive service strategy is designed to suit your operational needs, bringing together all vital maintenance, planned overhauls or exchanges and cover for breakdown repairs at no extra cost. All of this is managed under a single purchase order.

How can you improve uptime in your operations?

Delayed maintenance and gradual wear can impact reliability and reduce uptime. We help you stay ahead with timely service using genuine parts, expert fault-finding, and professional support, delivered through a streamlined and responsive process.

Customers with Total Care achieve on average 18 additional days of uptime per year!

How can you maintain control over your budget while reducing the risk of unexpected costs?

Unplanned repairs, fluctuating servicing expenses, and unforeseen periods of downtime can make financial planning unpredictable and difficult to manage. If you are seeking a transparent, pre-defined annual budget that covers routine maintenance, planned overhauls or exchanges, expert diagnostics, and even unexpected repair work throughout the agreement period, our all-in-one service solution is the answer.

Customers with Total Care typically save an average of 20% on service costs over a five-year period!
