

Preventive Care

Our Preventive Care plan includes maintenance performed by Leybold Service experts using genuine spare parts. This means cost efficiency, reliability, longer lifetime, and peace of mind.

Peace of mind

Choosing our Preventive Care plan, Leybold will take over maintenance planning and responsibility for servicing your vacuum pumps on a regular basis. It lifts the burden of having to follow up on pump service requirements along with ordering each service visit individually.

Cost-efficient approach

Regular maintenance of your installation keeps your costs down, as it prevents production downtime and expensive secondary damages. Additionally, Preventive Care is provided at a fixed price agreed in advance, allowing you to plan your yearly maintenance budget more efficiently.

Longer lifetime for your vacuum pumps

Regular maintenance conducted by our service experts extends your vacuum pump's life. Our technicians will replace worn parts to ensure that your vacuum pumps last longer and will run constantly. The use of genuine spare and wear parts will enhance the performance of your pump.

Reliability and productivity

All service actions are executed according to the manufacturer's recommendations, using genuine parts and oil to guarantee the high performance levels. This prevents production breakdowns and ensures high vacuum productivity and profitability. You can concentrate fully on what you care about the most: your production.

Leybold service – an expert and reliable partner

Maintaining your uptime and reducing the risk of production downtime is critical. Wherever you are, Leybold is there to support you as your vacuum service partner. Our Field Service Team and our fully-equipped Service Technology Centers are at your disposal.
